PROFILE

Driven software engineer with 1+ years of experience in PeopleSoft Campus Solutions (Campus Community, Admissions, Student Records). Skilled in PeopleCode, Application Engine, Component Interface, and Integration tools. Strong expertise in software testing (functional, regression, UAT) to ensure quality and reliability. Detail-oriented, proactive, and passionate about delivering scalable, user-friendly solutions.

SKILLS & ABILITIES

Peoplesoft Tools: People Code, Application Engine, Application Designer, Component Interface, SQR

Testing: Manual Testing, Functional Testing, Regression Testing, User Acceptance Testing (UAT)

Programming & Scripting: Python, SQL

Database Technologies: Oracle SQL, MySQL

Web & UI Technologies: Figma (basic UI design)

Version Control & IDEs: Git, GitHub, PyCharm, Visual Studio

Development Methodologies: Agile, Scrum

Soft Skills: Strong communication, Collaborative team player, Analytical thinker, Problem-solver

EXPERIENCE

PEOPLESOFT ERP CONSULTANT

MCAMDOIS TECH SOLUTIONS | AUG 2024 – SEPT 2025

- Supported and customized PeopleSoft Campus Solutions modules (Campus Community, Admissions, Student Records) to meet enterprise requirements.
- Developed and optimized custom solutions using PeopleCode, Application Engine, Component Interface, and Application Designer.
- Designed and maintained SQR reports, PS Queries, and SQL scripts for academic, HR, and finance operations.
- Provided production support by troubleshooting issues, implementing fixes, and delivering enhancements.
- Partnered with functional teams to gather requirements, perform functional/regression/UAT testing, and deploy solutions in Agile sprints.

PUBLICATION

Co-authored and published a research paper in IJIRT on real time vehicle accident detection and automated emergency alert system using GPS & GSM (Aug 2024, ISSN: 2349-6002).

EDUCATION

B.TECH IN INFORMATION TECHNOLOGY, AALIM MUHAMMED SALEGH COLLEGE OF ENGINEERING, CHENNAI | 2020-2024 | CGPA: 7.99

PROJECT

STUDENT ADMISSION AUTOMATION USING QUICK ADMIT

- Configured **Component Interface (CI)** to integrate external online admission forms with PeopleSoft.
- Developed **Application Engine** and **PeopleCode** programs for data validation and automatic student ID generation.
- Integrated with **Campus Community** to maintain student biographical and demographic records.
- Created automated **email notification logic** to confirm successful admission to applicants.
- Collaborated with US-based functional teams for requirements gathering, testing, and deployment.

VEHICLE ACCIDENT DETECTION AND REPORTING SYSTEM (GPS & GSM)

- Engineered an accident detection system using **vibration sensors**, **GPS** for location tracking, and **GSM modules** for real-time messaging.
- Designed logic to detect collisions and automatically send SMS alerts with coordinates to emergency contacts.
- Built with an embedded system approach using **Arduino or similar microcontrollers**.
- Enhances road safety by reducing emergency response time.

E-COMMERCE WEBSITE

- Created a fully responsive e-commerce platform using **HTML5**, **CSS3**, and **JavaScript**.
- Implemented **product listing**, **cart functionality**, and **user authentication** for a seamless user journey.
- Focused on **UI/UX design principles** to deliver a modern and intuitive front-end experience.
- Employed **form validation**, **responsive layout**, and **cross-browser compatibility**.

CERTIFICATION

PYTHON FULL-STACK DEVELOPMENT – QSPIDERS

- Trained in Python, Django, SQL, and full-stack web application development

CLOUD ESSENTIALS CERTIFICATION – VERANDA LEARNING & IBM

- Foundational knowledge of cloud computing concepts and architecture **CHATGPT**

INTEGRATION USING PYTHON & JAVASCRIPT – GUVI

- Built intelligent applications using OpenAI's ChatGPT with Python and JavaScript

LANGUAGES

- **ENGLISH**
- **TAMIL**
- **URDU**
- **HINDI**
